

## **SL's Collard's**

Chronicles 3

September 5, 2020

Several bunches **fresh collard greens**

Olive oil

Cut **unsalted** cashews

Salt

Use a **big pan** because the collards go in big, come out sweated down and much smaller..

Heat, **medium**, add cashews, **brown slightly**, then add washed, cut collards, **put the lid on**.

This takes no more than **7 minutes**. Turn off the heat, add **salt** to taste, enjoy.
